

Experts Journalists Might Contact for Comment re. Alzheimer's Mouse Study

Lukas Margaritis, Ph.D., Head of the Department of Cell Biology and Biophysics
University of Athens (one of the largest bioelectromagnetics labs in the world)

lmargar@biol.uoa.gr

(Listen to interview with Dr. Margaritis here:

<http://electromagnetichealth.org/electromagnetic-health-blog/alzheimers-mouse-study-do-we-smell-a-rat/>)

Adamantia Fragopoulou

Department of Cell Biology and Biophysics, University of Athens

madofrag@biol.uoa.gr

Listen to interview re. recent study, *"Whole body exposure with GSM 900 MHz Affects Spatial Memory in Mice"*, by Fragopoulou et al:

<http://electromagnetichealth.org/electromagnetic-health-blog/mice-exposed-to-cell-phone-radiation-exhibit-memory-deficits/>

Alasdair Philips, B.Sc.(Eng), DAgE, Powerwatch UK

(<http://www.powerwatch.org.uk>), as well as a member of the UK Department of Health Stakeholder Group on ELF EMFs and the U.K. Health Protection Agency's EMF Discussion Group

alsadair@powerwatch.org.uk

Andrew Goldsworthy, PhD

Retired Biologist, Imperial College in London

andrew.goldsworthy1@btinternet.com

Lloyd Morgan, B.Sc.

Lead Author "Cellphones and Brain Tumors: 15 Reasons for Concern", EMF researcher and Member, The Bioelectromagnetics Society

Bilovsky@aol.com

Scott Mendleson, MD, PhD

Author, *"Beyond Alzheimer's: How to Avoid the Modern Epidemic of Dementia"*

s_mendelson@msn.com

Henry Lai, PhD

Bioelectromagnetics Research Laboratory

Department of Bioengineering,

University of Washington

hlai@u.washington.edu

Devra Davis, PhD, MPH

Professor of Preventive Medicine at Mt. Sinai Medical , New York, NY
Founded the world's first Center for Environmental Oncology at the University of Pittsburgh Cancer Institute
Founder, Environmental Health Trust
Author, "The Secret History of the War on Cancer"
devra.davis@gmail.com

Martin Blank, PhD

Columbia University
Dept of Physiology and Cellular Biophysics
mb32@columbia.edu

Jerry Phillips, PhD

Director, Science Learning Center & Professor (Attendant) of Chemistry
University of Colorado at Colorado Springs
Prior EMF researcher: First to report changes in DNA damage as a consequence of radiofrequency field exposure; Participated in studies to determine whether exposure of laboratory animals to cell telephone frequency fields altered the development of brain and other central nervous system tumors.
jphillip@uccs.edu

B. Blake Levitt

**Science writer; author of *Electromagnetic Fields*,
Expert in EMF science**
Blakelevit@cs.com

Paul J. Rosch, MD

Clinical Professor of Medicine and Psychiatry, New York Medical College; Honorary Vice President International Stress Management Association; Diplomate, National Board of Medical Examiners; Full Member, Russian Academy of Medical Sciences; Fellow, The Royal Society of Medicine; Emeritus Member, The Bioelectromagnetics Society
stress124@optonline.net

Olle Johansson, Ph.D.

Department of Neuroscience
Karolinska Institute, Stockholm, Sweden;
Author of the BioInitiative Report's section on the Immune System
Olle.Johansson@ki.se

Abe Liboff, PhD

Research Professor
Center for Molecular Biology and Biotechnology
Florida Atlantic University, Boca Raton
Co-Editor, *Electromagnetic Biology and Medicine*
liboff@oakland.edu

David Carpenter, MD

Professor, Environmental Health Sciences, and
Director, Institute for Health and the Environment, School of Public Health,
University of Albany, SUNY

Co-Editor, The BioInitiative Report (www.BioInitiative.org)

Carpent@uamail.albany.edu

Don Maisch, PhD (candidate)

Doctoral thesis on the history of EMF exposure guidelines

www.emfacts.com (Australia)

dmaisch@emfacts.com
